PROFESSIONAL SUMMARY

Software Developer with 4+ years of experience building scalable backend systems, RESTful APIs, and data-driven applications. Experienced in integrating large-scale government datasets, optimizing database performance, and designing reliable backend architectures. Proven ability to develop high-performance services handling large data volumes while maintaining code quality and system reliability.

TECHNICAL SKILLS

Languages: JavaScript, SQL

Backend: Node.js, Express.js

Frontend: React.js, HTML, CSS, Bootstrap

Database: PostgreSQL

Data Integration: REST APIs, Apache NiFi

Tools: Git, Postman

Architecture: API-driven architecture, scalable backend systems

PROFESSIONAL EXPERIENCE

Senior Software Developer – [Protean eGov Technologies](#)

Apr 2025 – Present | Delhi, India (Hybrid)

- Developed backend services for AgriStack, India's digital agriculture data platform.
- Integrated multiple government APIs including Crop Registry, Animal Husbandry, and Fisheries datasets.
- Implemented REST API integrations using pagination and offset mechanisms for large-scale data retrieval.
- Built reliable validation and error-handling workflows for high-volume data processing.

- Improved system maintainability and performance for large agricultural registry datasets.

Software Developer – [Prevoyance IT Solutions Pvt. Ltd.](#)

Sep 2022 – Apr 2025 | Nagpur, India

- Developed scalable REST APIs and backend modules for enterprise applications.
- Optimized database queries and schema design to improve system performance.
- Built API-driven architecture enabling modular and scalable system integrations.

PROJECTS

[Polymed CRM](#) | 2022

- Built a CRM platform automating sales operations and customer relationship management.
- Designed API-centric architecture supporting scalable integrations.

[NADP Digital Learning Platform](#) | 2022–2023

- Developed RESTful APIs for classes, users, and learning content.
- Implemented PostgreSQL database structures to manage large learning datasets.

[AgriStack Platform](#) | 2023–2025

- Built backend services supporting large-scale agricultural registry datasets.
- Improved data accessibility and system performance through optimized services.

EDUCATION

Bachelor's Degree in BCCA (Commerce and Computer Application)

Dr. Ambedkar Institute of Management Studies, Nagpur
